Passenger Lift

Our innovations – Your advantages

Picture ISO PA
(autom. sliding doors)

Technique

- Controller with micro-processor plug-in system
- complete drive unit in headroom (no separate machine room necessary)
- Quality „Made in Germany“ complies safety standard EN 81

Picture ISO PM
(manual hinged doors)

- self-supporting galvanised steel structure
- minimum headroom
- Pit 35 cm instead of 130 cm
- pre-installed cabin and drive unit
- easy installation

The lift is ideal for retrofit within existing buildings with min. adjustment on site
